

Andreas Nonnenmacher

PRESIDENT AND CEO OF ARKA GROUP, L.P.

Andreas Nonnenmacher is president and CEO of ARKA Group L.P., leading the company's growth and innovation. Since becoming president in 2020, he has led the company's transformation through the acquisitions of AMERGINT Technologies, Inc., Danbury Mission Technologies, LLC, The Stratagem Group, LLC, Tethers Unlimited, Inc., and Lumacron Technology, Ltd.

Previously, he served as vice president of ISR & Space Systems at Collins Aerospace Systems, where he was responsible for developing business strategy and overseeing the division's program portfolio across multiple sites. He began his career at PerkinElmer's Government Systems Division, serving in several engineering and program management roles before being named director of special programs, overseeing the division's proprietary programs.

He holds Bachelor of Arts degrees in physics and German from Colgate University and a Master of Science degree in physics from the University of Connecticut.
